

REMON KHALIL FATHY

IT Infrastructure Administrator & Web Developer

Alexandria, Egypt | +2001283379406 | Remonkhalil1000@gmail.com | [linkedin.com/remon-khalil-9592832b3/](https://www.linkedin.com/in/remon-khalil-9592832b3/)

SUMMARY

IT Infrastructure Administrator with 6+ years of experience designing, deploying, and securing robust network architectures and server environments. Proven expertise in advanced firewall configurations, load balancing, and cross-platform server administration. Unique capability in leveraging full-stack development to build custom automation tools and software solutions, significantly optimizing system uptime, network connectivity, and operational efficiency.

EDUCATION

Bachelor of Information Systems

- Cumulative Grade: **Good**

EXPERIENCE

Marina Platforms

IT Infrastructure Administrator | Nov 2020 – Present

- Manage and maintain local enterprise network infrastructure, optimizing uptime, connectivity, and overall system reliability.
- Configure and administer corporate firewalls (pfSense) to enforce robust network security policies and comprehensive access control.
- Execute advanced server administration tasks, including Windows Server DHCP infrastructure setup, scope management, and policy implementation.
- Deploy and fine-tune network load balancing solutions (Mikrotik and TP-Link) across multiple ISPs to guarantee zero downtime and reliable traffic distribution.

Freelance & Personal Projects

Full-Stack Web & Software Developer | 2025 – Present

- 3D Product Configurator Web Application: Developed an interactive, responsive web-based 3D application allowing users to smoothly manipulate and rotate architectural/industrial models (.glb files) utilizing a high-performance modern user interface.
- "Phone Care" Desktop Application: Engineered a customized inventory management and financial tracking desktop application tailored for mobile retail shops, featuring right-to-left Arabic text orientation and clean data field alignment.

- **Structured Data Navigation:** Integrated smart dropdown selection fields inside "Phone Care" to streamline bulk item entries and prevent manual data entry errors.
- **Reporting Integration:** Developed an automated "Export to Excel" analytical feature enabling direct, seamless financial reporting, live inventory reconciliation, and stock audits.
- **UI/UX Design:** Authored optimized high-resolution dark-theme layouts across multiple applications to fulfill personal preferences for high-quality, modern, and visually professional interfaces.

TECHNICAL SKILLS

- **Infrastructure & Networking:** Network Load Balancing (Mikrotik, TP-Link), Firewall Configuration (pfSense), Windows Server Administration, DHCP Server Architecture.
- **Web & Software Development:** HTML5, CSS3, JavaScript (Interactive 3D Integration & WebGL), C# / .NET Application Development.
- **UI/UX & Design Systems:** Modern Dark-Mode Interfaces, High-Resolution Layout Design, Professional Component Styling, RTL Text Alignment.
- **Tools & Data Management:** Structured Inventories, Excel Data Exporting Libraries, Report Generation.

LANGUAGES

- **Arabic:** Native Language
- **English:** Professional & Technical Proficiency
